

CITY OF NILES

NOTICE TO RESPONDERS

MEDICAL MARIHUANA PROPOSERS

RFP

ADDENDUM #2

This addendum provides clarification on several questions, which have come up recently.

- Q. Given the short time frame of the RFP process we are encountering difficulty obtaining the necessary services to comply with the request for Special Land Use and Site Plans.
- R. This RFP does have a short time frame. To the extent possible provide all the requested documentation. Any documentation not available should be noted and a description of how it will be or could be provided in the future if selected for a license.
- Q. The RFP states: "A Site Plan for any license application conducting any exterior construction, rehabilitation or remodeling and all required documents and fees" Does "exterior" modify "construction", "rehabilitation", and "remodeling"? That is, if the only work being done on the building is inside, is a site plan needed?
- R. No. Site plans are only needed for exterior work.
- Q. On page 9 question 7 in the ordinance it states that we are to provide "An approved Special Land Use Permit from the Planning Commission as well an approved Building Permit by the City of Niles Building Official as appropriate."
- R. This RFP does have a short time frame. To the extent possible provide all the requested documentation. Any documentation not available should be noted and a description of how it will be or could be provided in the future if selected for a license.

In addendum 1 an error in the police powers ordinance (opt in ordinance) was identified. An amendment to this ordinance will be presented for a first reading on Monday November 27, 2017 a copy of the amendment is included with this addendum for your review.

No future addendums will be posted after 4:00pm on November 22, 2017.

Until the close of the addendum period, please send your questions to the City Administrator's office via email: cityadministrator@nilesmi.org .
