

# CITY OF NILES

## NOTICE TO RESPONDERS

### MEDICAL MARIHUANA PROPOSERS

#### RFP

#### ADDENDUM #3

This addendum provides clarification on several questions, which have come up recently.

- Q. What are the building codes and build out material requirements?
- R. The City of Niles, BSD enforces the 2015 Michigan Building Code, 2015 Michigan Residential Code, 2015 Michigan Rehabilitation Code, 2015 International Fire Code, 2015 Mechanical Code, 2015 Plumbing Code (State Enforcement), and the 2014 National Electrical Code (NEC).
- Q. What is the reason for not allowing HPS and MH lamps? Would we have to get permission for HPS and MH lamps before supplying a lighting plan?
- R. HPS and MH are allowed. The purpose of obtaining permission prior to this type of lighting being authorized is to assure the City of Niles' electrical distribution system can support the power demand or whether any distribution system upgrades will be necessary. Permission is not necessary prior to submitting the RFP but will be required prior to occupancy being approved.
- Q. Who is allowed in the grow room?
- R. The City of Niles defers to state law on this matter.

**No future addendums will be posted.**
